

## **Meredith Public Library's Community Outreach Policy**

The Meredith Public Library through Community Outreach is committed to developing library services for non-traditional library users, the underserved, and people with special needs in Meredith. We wish to promote our services to those who might otherwise not think of using the library and will perhaps change their minds once they see all that their library has to offer them.

Our goal is to develop and implement relevant library services for the following populations: Homebound Citizens, Seniors, Students, Service Organizations, and non-traditional users of the library. We are committed to delivering library services where people live or congregate since visiting the library is difficult for many Meredith citizens. Because the Library has the unique privilege of serving everyone in our community, we strive to train and assist staff in best meeting the needs of our public.

Community Outreach is offered to all Meredith citizens. Technology training, genealogy, after-school enrichment, book groups, homebound delivery service, and various library-related lectures and training can be requested. Since the library has a small staff, we will try our best to accommodate all requests, but in-library service must take priority. There may be times when the Library cannot fill requests for off-site service.

To request off-site service, please contact the Library Director at 603-279-4303 or [erin@meredithlibrary.org](mailto:erin@meredithlibrary.org) who will put you in contact with the best staff person to fill your needs.
