

Library Trustee Building Subcommittee  
Wednesday, November 13, 2019

Meeting was called to order at 8:30AM.

Building subcommittee members in attendance were Paul Eldridge, Jonathan James, Erin Apostolos, Ed Touhey, and Betty Strader.

The subcommittee reviewed the use of spaces and finishes in the renovated and new building. Consensus was to use rugs in the front historic rooms (potentially in a similar pattern) and a runner extending from the historic entrance and past the circulation desk with refurbished floors showing at the edges. Photos of many other libraries were reviewed generating discussion of what the committee liked and would be considered for our renovation. Design items to follow up with Ron next week include glass walls next to program room entrance, storage room, kitchen design, and circulation desk configuration.

Meeting adjourned at 11:15AM.

Respectfully submitted,

Betty Strader
