

# NO-SEW SOCK BUNNY

A GREAT WAY TO USE SINGLE SOCKS!

## Materials:

- 1 Sock
- Stuffing
- White Felt
- Googly Eyes
- Cotton Ball
- Tiny Elastics
- Pony Bead
- White Yarn
- Ribbon
- Glue Gun

## Step 1.

Take a good handful of stuffing and push it into the sock, right down to the toe – this will be the bunny's body.

## Step 2.

Pinch the sock tightly over top of the stuffing, then add the elastic band onto the sock to hold it all in place. I used tiny hair elastics to hold everything together.

## Step 3.

Add more fill to make the bunny's head. The head should be slightly smaller than the body. Then pinch together the top of the sock, add another elastic.

## Step 4.

For the nose, use a bead with yarn pulled through. Use a small rectangle of white felt and cut a slit in one side for teeth. Attach the eyes, nose and teeth to the head w/ a glue gun.

## Step 5.

Cut the top of the sock to make two ear shapes for the bunny. Finally, tie a ribbon around the bunny's neck.

## Step 6.

Cut out an oval from white felt for the bunny's tummy. Then press it in place onto the bunny's tummy. Attach a small cotton ball to the back of the body.
